Ogden, IA 50212-7312

Dear Ms. Ulrick:

Based upon your recent request for a Certified Wetland Determination, this letter is to notify you that a Certified Wetland Determination has previously been completed for your Farm #2855, Tract #4062, in Boone County, Iowa. The previously Certified Wetland Determination was completed in accordance with the National Food Security Act Manual Wetland Identification procedures; Title 7, Part 12, of the Code of Federal Regulations (CFR) and Title 7, Part 12.5(b) and part 12.2 of the CFR. A copy of the previously completed Certified Wetland Determination has been enclosed for your review. The Certified Wetland Determination was completed for the same area as your Current Wetland Determination request. Therefore, your current request for a wetland determination will not be completed by the Natural Resources Conservation Service (NRCS).

If you agree with the enclosed Certified Wetland Determination, no further action is required on your part. The enclosed Certified Wetland Determination may be relied upon when making decisions involving future drainage projects. If additional information is needed, please contact your local NRCS office.

If you disagree with the enclosed Certified Wetland Determination, you may request a Review of the determination if one of the following applies:

- 1) If a natural event has altered the topography or hydrology of the subject land to the extent that the final certification is no longer a reliable indication of site conditions, or
- 2) The NRCS concurs that an error exists in the current wetland determination.

A request for review of the enclosed Certified Wetland Determination must be in writing and include what natural event occurred that changed the hydrology or topography or what error exists in the current wetland determination. Failure to include this information will result in your request for a review being denied.

You have not been offer appeal rights as the appropriate time period to request an appeal of the 1991 determination has expired. If you feel that NRCS's decision to deny appeal rights is in error you may request a review of this decision from the Director of the Nation Appeals Division (NAD). Your request must be in writing and state the reason that the decision to deny appeal rights is in error. You may contact the NAD Director at the following address:

CONSERVATION PLAN

Client: Ulrick, Cleo G.

Cleo G. Ulrick

Assisted By: John White

LAND UNITS		PLANNED			APPLIED		PLANNED CONSERVATION TREATMENT	
TRACT	FIELD	AMOUNT	MONTH	YEAR	AMOUNT	DATE		
4062	3	36.9Ac					CROP A CROP ROTATION of corn soybeans will be used on these fields. CROSS-SLOPE FARMING will be used for all planting and tillage operations (row grade predominately 3.5% or less). The following CONSERVATION TILLAGE system will be used: Soybean stubble is spring tilled leaving at least 30% of the ground covered by residue after planting corn. Soybeans are no-tilled into corn stalks leaving at least 80% of the ground covered by residue after planting soybeans.	
4062	3	HEL*	36.9ac	05	1994	36.9ac	05/18/1994	CONSERVATION CROP ROTATION
4062	3	HEL*	36.9ac	05	1994	36.9ac	05/18/1994	Conservation tillage
4062	3	HEL*	0.3ac	11	1996	0.3ac	01/06/1997	GRASSED WATERWAY
4062	3	HEL*	800.0ft	11	1996	800.0ft	01/06/1997	TERRACE
4062	3	HEL*	1450.0ft	11	1996	1450.0ft	01/06/1997	UNDERGROUND OUTLET
4062	3	HEL*	2.0no	11	1996	2.0no	01/06/1997	WATER AND SEDIMENT CONTROL BASIN

HEL Fields marked as HEL are highly erodible fields.

HEL\* Reapplication of this conservation practice on this highly erodible field is required for compliance with the Food Security Act of 1985. See the Conservation Plan for details about first time application.

CONSERVATION PLAN

No Records Found.

CERTIFICATION OF COMPLIANCE WITH THE FOOD SECURITY ACT, 1985

I (We) concur in the conservation practices and installation schedules indicated in this conservation plan for all fields labeled HEL\*. I (We) understand that, when this conservation plan for HEL fields is applied to the land and maintained on a continuing basis, the conservation system will meet all of the Food Security Act of 1985 requirements for conservation compliance. Furthermore, I (we) understand that if any fields other than those HEL fields specified in this plan will be used for the production of agricultural commodities, I (we) will contact ASCS and SCS for an HEL determination.

Owner - *Cleo G. Ulrick*  
Cooperator (Producer) *Chad E. West* Date *1-27-97*

The above Conservation Plan meets the requirements of the Field Office Technical Guide.

District Conservationist *David P. Brummel* Date *1/27/97*

Approved by

Conservation District *Gregory J. Conrad* Date *2/18/97*
