Ogden, IA 50212-7312

Boone CO  
FSA copy

Dear Ms. Ulrick:

Based upon your recent request for a Certified Wetland Determination, this letter is to notify you that a Certified Wetland Determination has previously been completed for your Farm #2855, Tract #4062, in Boone County, Iowa. The previously Certified Wetland Determination was completed in accordance with the National Food Security Act Manual Wetland Identification procedures; Title 7, Part 12, of the Code of Federal Regulations (CFR) and Title 7, Part 12.5(b) and part 12.2 of the CFR. A copy of the previously completed Certified Wetland Determination has been enclosed for your review. The Certified Wetland Determination was completed for the same area as your Current Wetland Determination request. Therefore, your current request for a wetland determination will not be completed by the Natural Resources Conservation Service (NRCS).

If you agree with the enclosed Certified Wetland Determination, no further action is required on your part. The enclosed Certified Wetland Determination may be relied upon when making decisions involving future drainage projects. If additional information is needed, please contact your local NRCS office.

If you disagree with the enclosed Certified Wetland Determination, you may request a Review of the determination if one of the following applies:

- 1) If a natural event has altered the topography or hydrology of the subject land to the extent that the final certification is no longer a reliable indication of site conditions, or
- 2) The NRCS concurs that an error exists in the current wetland determination.

A request for review of the enclosed Certified Wetland Determination must be in writing and include what natural event occurred that changed the hydrology or topography or what error exists in the current wetland determination. Failure to include this information will result in your request for a review being denied.

You have not been offer appeal rights as the appropriate time period to request an appeal of the 1991 determination has expired. If you feel that NRCS's decision to deny appeal rights is in error you may request a review of this decision from the Director of the Nation Appeals Division (NAD). Your request must be in writing and state the reason that the decision to deny appeal rights is in error. You may contact the NAD Director at the following address:

Cleo Ulric

**HIGHLY ERODIBLE LAND AND WETLAND  
CONSERVATION DETERMINATION**

4. Name of USDA Agency or Person Requesting Determination

ASCS

5. Farm No. and Tract No.

f2885 t4062

**SECTION I - HIGHLY ERODIBLE LAND**

6. Is soil survey now available for making a highly erodible land determination?	Yes	No	Field No.(s)	Total Acres
7. Are there highly erodible soil map units on this farm?				
8. List highly erodible fields that, according to ASCS records, were used to produce an agricultural commodity in any crop year during 1981-1985.				
9. List highly erodible fields that have been or will be converted for the production of agricultural commodities and, according to ASCS records, were not used for this purpose in any crop year during 1981-1985; and were not enrolled in a USDA set-aside or diversion program.				
10. This Highly Erodible Land determination was completed in the: Office <input type="checkbox"/> Field <input type="checkbox"/>				

NOTE: If you have highly erodible cropland fields, you may need to have a conservation plan developed for these fields. For further information, contact the local office of the Soil Conservation Service.

**SECTION II - WETLAND**

11. Are there hydric soils on this farm?	Yes	No	Field No.(s)	Total Wetland Acres
	X			
List field numbers and acres, where appropriate, for the following EXEMPTED WETLANDS:				
12. Wetlands (W), including abandoned wetlands, or Farmed Wetlands (FW). Wetlands may be farmed under natural conditions. Farmed Wetlands may be farmed and maintained in the same manner as they were prior to December 23, 1985, as long as they are not abandoned.				8.8
13. Prior Converted Wetlands (PC) - The use, management, drainage, and alteration of prior converted wetlands (PC) are not subject to FSA unless the area reverts to wetland as a result of abandonment. You should inform SCS of any area to be used to produce an agricultural commodity that has not been cropped, managed, or maintained for 5 years or more.				
14. Artificial Wetlands (AW) - Artificial Wetlands includes irrigation induced wetlands. These Wetlands are not subject to FSA.				
15. Minimal Effect Wetlands (MW) - These wetlands are to be farmed according to the minimal effect agreement signed at the time the minimal effect determination was made.				
NON-EXEMPTED WETLANDS:				
16. Converted Wetlands (CW) - In any year that an agricultural commodity is planted on these Converted Wetlands, you will be ineligible for USDA benefits. If you believe that the conversion was commenced before December 23, 1985, or that the conversion was caused by a third party, contact the ASCS office to request a commenced or third party determination.				

17. The planned alteration measures on wetlands in fields \_\_\_\_\_ are considered maintenance and are in compliance with FSA.

18. The planned alteration measures on wetlands in fields \_\_\_\_\_ are not considered to be maintenance and if installed will cause the area to become a Converted Wetland (CW). See item 16 for information on CW.

19. This wetland determination was completed in the: Office  Field

20. This determination was: Delivered  Mailed  To the Person on Date: 3/25/91

NOTE: If you do not agree with this determination, you may request a reconsideration from the person that signed this form in Block 22 below. The reconsideration is a prerequisite for any further appeal. The request for the reconsideration must be in writing and must state your reasons for the request. The request must be mailed or delivered within 15 days after this determination is mailed to or otherwise made available to you. Please see reverse side of the producer's copy of this form for more information on appeals procedure.

NOTE: If you intend to convert additional land to cropland or alter any wetlands, you must initiate another Form AD-1026 at the local office of ASCS. Abandonment is where land has not been cropped, managed, or maintained for 5 years or more. You should inform SCS if you plan to produce an agricultural commodity on abandoned wetlands.

21. Remarks

22. Signature of SCS District Conservationist
